

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Wieland on 05/04/11.

The application has been amended as follows:

***Rejoinder of withdrawn claims***

Claims 1-2, 4-10, and 14 are allowable. The restriction requirement between the claims of Group I and Group III, as set forth in the Office action mailed on 06/24/10, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 11-13 and 17, directed to CMV resistant plant/seed are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

In The Claims:

Claim 2 (Currently amended). The [An] isolated nucleic acid of Claim 1 further comprising a primer for the detection of a CMV-resistant plant, which comprises the [a] consecutive nucleotide selected from a] nucleotide sequence set forth in SEQ ID NOs: 23, 24, 25, 26, 27, or [to] 28.

At claims 11-13 and 17, in line 2, "a nucleotide sequence" is replaced with the ---- the nucleotide sequence---
